**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Companies like Comcast, AT&T, and TWC have a virtual monopoly on the home internet market. Americans get charged some of the highest rates of countries in the first world countries for access to something that is as vital as the printing press. This is unfair to people who are lower income how need that access to learn and succeed.

I choose an alternative provider not only because they provide a better price, but a better service all around. Its this competition that the companies need to keep them innovating and improving. Thats the American way.

So I ask you today to not give into their demands. Dont allow these companies to keep us in the Stone Age in the name of profits. Keep companies and projects battling this imbalance like the Google Fi project and Sonic running affordably so that America can continue to be the best nation in the world.
